Policies and Procedures

Identifying your work

Describe your work on the firing form. Example: Lidded Vessel or Statue of a Bird. Also, be sure to include your contact information. It is very helpful to sign your name, add your initials, or stamp your mark onto your piece. Then add that information to your firing form.

Avoiding Problems

Do not be frightened by the contents of the following statements, but please take care when submitting your wares to be fired!

Please remember that glazes applied on the bottom or too thick near the bottom of your piece will cause it to stick to the kiln shelf.

Glazed drips and fused pots caused by the improper application of glazes as listed above will be subject to a labor charge of \$5.00 per drip to restore the kiln shelves to usable conditions. Five or more glaze drips per piece or per shelf wins you a kiln shelf at a cost of \$30.00. With extensive damage shelves are not repairable. Pieces will be held until the damages are paid.

In addition, the Arts Center is not responsible for loss resulting from air bubbles or poor craftsmanship.

Payment

All firing must be pre-paid by cash, check, Visa, or MasterCard.

Firing Times and Completion

The Arts Center will ensure that steps are taken to complete your firing in a timely manner, however to prevent wasting valuable electricity, we cannot fire unless a load is at least ½ filled. Consider bringing several shelves of pottery at once or sharing a kiln load with a friend. Occasionally we may post seasonal deadlines for special occasions.
